Junior Achievement

is a business on a small scale. Between 15-25 high school students from all of the Minneapolis schools met one night a week to make a product and hold their business meeting. The next week they brought in the money from the sale of the product and made more to sell. At the end of the school year the company liquidated and profits were distributed among the stockholders.

Drama

In spring drama the students started a type of informal theatre called improvisation, which involved presenting a situation without previously preparing complete dialogue. Drama classes also participated in a Drama Festival at West High where Vocational students did a cutting from the play JANE EYRE and a three act improvisation. Students also did an All-School Variety Show in which high school and post high students participated.

Last Revolving Year

Before the

Is Through . . .

The seasons they
go round and
round and the painted
ponies go up and down.
We're captives on the carou-
sel of time, we can't return
we can only look behind from where
we came

And go round and round
and round in the
circle game. So the boy
who dreamed "tomorrow"

now is twenty,
though his dreams
have lost some grandeur
coming true, they'll be
new dreams, maybe better
dreams and plenty, before
the last revolving year is through
